FOR IMMEDIATE RELEASE

Mundania Press: *The Moses Probe* by Ted Magnuson

**Cincinnati, Ohio July 9, 2006, —Mundania Press (<http://www.mundania.com>) announces the release of *The Moses Probe* by Ted Magnuson.**

## The Moses Probe

The story; Just before Lt. Jac Flyte embarks on a faster-than-light journey to Alpha Centauri, Cheryl, his 'former' fiancé calls. An astrophysicist, she asks him...if before he goes away forever...would he please come see what Edmund Leahy has discovered...

Cheryl's colleague, Dr. Leahy, has cracked the code in an otherworldly artifact called the Moses Probe. The secret far exceed mere transit to Alpha C at the speed of light— It is instantaneous transit to any planet in the known Universe. For these efforts, Jac knows Leahy has been mocked and maligned. Yet Jac believes in Cheryl. He puts aside his convictions that faster-than-light technology is as good as it gets; he risks his mission to Alpha C and goes with Cheryl to call on Leahy. When they go, they find Leahy murdered, even as his work is about to be destroyed.

Quickly, Jac and Cheryl must choose: pick up where Leahy left off, commit themselves to each other and to the quest for intergalactic laurels—or die.
